

KORN-HOLE GAME BOARDS

Instructions and Resources

The game boards are designed to be cut in 2 passes using a 1/4" end mill and one sheet of 1/2" A/B Plywood, of your choice, whether pine or nice veneered plywood.

Assembly is quite easy, once they have been cut, simply place the side runner panels in place. Then add the cross braces to the front and rear slotted areas and you're ready to play Korn-Hole.

To order official size Korn-Hole Bean Bags Hines Design Labs uses we use "Corn Hole Bags and Boards" their website can be found here:
